ABOUT ME

Experienced Graphic Designer with a rich background spanning five years and Frontend Web Developer. Currently pursuing a Bachelor's degree in Computer Engineering at Beirut Arab University, Lebanon. Proficient in graphic design, and in Front-end web developing (HTML5, CSS, and JavaScript) I seamlessly can blend creativity with technical skills.

EXPERTISE

Graphic Design:

- Photo Editing: Proficient in advanced techniques for image enhancement and manipulation.

- Photo Blending: Adept at seamlessly combining multiple images for cohesive compositions.

- Full-Stacked Social Media Package Designer: Experienced in creating comprehensive and visually appealing graphics for various social media platforms.

Web Development Skills:

- HTML5

- CSS

- JavaScript

- Bootstrap

-React

-php

-laravel

-MySql

Other Programming Skills:

- C: Proficient in the C programming language, capable of developing efficient and structured code.

- Python: Skilled in Python programming, adept at leveraging its versatility for scripting, and web development.

- Java: Experienced in Java programming, with a focus on building robust and scalable applications.

EXPERIENCE

Freelance Graphic Designer (5+ Years):

In my role as a Freelance Graphic Designer, I have accumulated over five years of experience translating abstract concepts into visually compelling designs. My work is characterized by a strong emphasis on advanced photo editing and blending techniques, resulting in striking and memorable visuals. Independently managing projects, I've specialized in crafting full-stack social media packages that deliver a cohesive and impactful brand presence across various platforms.

Key Achievements:

- Conceptual Transformation: Successfully translated client visions into captivating visual designs, demonstrating a keen understanding of brand identity and aesthetic preferences.

- Full-Stack Social Media Packages: Developed comprehensive social media packages, creating engaging content that harmonizes with brand themes and resonates with target audiences.

- Client-Centric Approach: Distinguished by a dedication to understanding client needs, ensuring each project is a unique representation of their vision. This client-centric focus has led to long-lasting relationships and repeat business.

My freelance journey has been marked by a commitment to excellence, creativity, and a tailored approach to each project. By continuously evolving my skills and staying abreast of design trends, I consistently deliver graphics that not only meet but exceed client expectations.

Freelance Frontend Web Developer :

In addition to my extensive Graphic Design experience, I've dedicated over nearly a year to Freelance Frontend Web Development. Proficient in HTML5, CSS, and JavaScript, I specialize in creating responsive and visually appealing websites. My approach involves clean and efficient code implementation, utilizing Bootstrap for enhanced responsiveness.

- Developed and maintained responsive websites using HTML5, CSS, and JavaScript.

- Implemented Bootstrap to streamline development and ensure optimal user experiences.

- Collaborated with clients to understand their brand and translate it into a visually appealing online presence.

EDUCATION

I completed my secondary education at Makkased Islamic High School in Lebanon, graduating with a solid foundation in various academic disciplines. Currently, I am pursuing a Bachelor's degree in Computer Engineering at Beirut Arab University, Lebanon. Throughout my academic journey, I have developed a strong passion for technology and a keen interest in the intricacies of computer systems. My coursework has equipped me with a comprehensive understanding of programming languages, hardware architecture, and software development. As a dedicated student, I am committed to achieving excellence in my studies and leveraging my education to contribute effectively in the field of computer engineering.
